

### REMARKS

The specification has been amended to reference the parent applications as well as the amendments made during prosecution of the parent case.

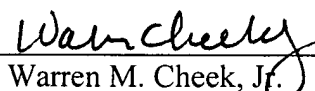

In addition, it is requested that the paper and computer readable copies of the Sequence Listing which were approved in the parent application be utilized in the present application. The paper and computer readable copies are identical, and no new matter has been added.

Favorable action on the merits is solicited.

Respectfully submitted,

Martin Hermann Klemens BRUNE et al.
